

## **Special Issue - Pontifical Mission Societies support younger Churches, formation of seminarians and priests, poor children, and missionary activities for entire People of God**

Vatican City (Agenzia Fides) – Collections taken up for World Mission Sunday, gifts from individual benefactors, and contributions that come in thanks to various missionary projects, are all sent first to the respective National Offices of the Pontifical Mission Societies in each country, to be put in a common fund, the Universal Solidarity Fund. During the Annual General Assembly of the Pontifical Missionary Societies, normally held during the month of May, presided by the Archbishop President and the Secretary Generals of the four Societies, the members of the Assembly discuss hundreds of requests from all over the world for funding for building churches, chapels and local centers for apostolate, for aid and formation of seminarians and catechists, for educational projects and activities for children, etc.. The Assembly, taking into account the available economic resources and criteria of equality and justice, decides on the distribution of the funding. Unfortunately, the Universal Solidarity Fund is never large enough to be able to respond positively to all the petitions for aid.

To promote missionary consciousness among seminarians, priests and religious. 2. To animate all animators of the People of God for the Mission (RM 84) by spreading and promoting the other PMS. 3. To foster Christian unity so that «they may be so perfected in unity that the world will recognise that it was you who sent me...» (Jn 17:23). 4. To put all the Church «in a state of mission».
