

AMERICA/ARGENTINA - Bishops of Patagonia: "social peace can be reached with the participation of all"

Neuquén (Agenzia Fides) - Public education must promote the value and care for life, the integral development of individuals and social cohesion. This is what the Bishops of Patagonia (Argentina) said in their Easter message, sent to Fides. The bishops added that social peace is achieved in particular "with decently paid work for everyone, and the participation of all in the decisions that direct the daily life for the common good."

The Bishops finally thanked God for the new Argentinian Pope, Francis, and asked to pray for his mission to evangelize men and women all over the world and "the daunting task of leading the fragile boat of the Church in the storms of history in which we live." (CE) (Agenzia Fides 04/04/2013)
