

ASIA/VIETNAM – Free surgery for a group of disabled children

Nam Dinh (Agenzia Fides) - A group of 30 disabled children in the northern Vietnamese province of Nam Dinh, will benefit from free surgery thanks to a program sponsored and supported by the Australian organization Hands For Hope. This year, thanks to this initiative, about 100 children will be taken care of all over the country. Hands For Hope was founded in 2000 by a group of young Australians of Vietnamese origin with the aim of providing direct assistance to the most disadvantaged children living in the country.
