

AFRICA/CONGO DR - A reception center for the Congolese expelled from Brazzaville has been created in Kinshasa

Kinshasa (Agenzia Fides) - The authorities of the Democratic Republic of Congo have created a reception center to assist its citizens who have been expelled from the neighboring Republic of Congo. The center, located in the stadium "Cardinal Malula" in Kinshasa, has already seen more than 30,000 people expelled from Brazzaville, where for two weeks the police have been carrying out a large-scale operation to reject illegal immigrants. Among those expelled from Congo Brazzaville there are also mothers with babies. Once back in Kinshasa, the Congolese are identified (a procedure that does not seem easy because several of them claim to have lost documents) and then are sent back to their places of origin. (L.M.)
