

AMERICA/HAITI - Economic support for Haitian mothers who live in extreme poverty

Port au Prince (Agenzia Fides) – The social program Ti Manman Cheri is an initiative which provides economic support to women living in extreme poverty with one or more children and is a real success for the local administration. Ti Manman Cheri was launched in Haiti in 2012 on the occasion of Mother's Day, thanks to a funding founded and promoted by Venezuela since 2005. Each beneficiary receives the equivalent to 9.20 to \$ 18.40 per month to meet the basic necessities. (AP) (Agenzia Fides 28/05/2014)
